MINNEAPOLIS NEW CHURCH SOCIETY  
Giroa 1869  
905 - 5th Ave. S.  
Minneapolis, Minn.

Built by the Minneapolis New Church Society (Swedenborgian) about 1869. Interesting for its frame construction and well designed wood ornament.

About 1900 it was taken over and used by a colored congregation. About 1915 it was again used by the New Church Society.

Heating plant and chancel alterations made in 1917.

This structure well records the wooden era that prevailed in this timbered country up to 1900.

  
District Officer.
